PREFACE

Dear Sir/Madam,

Indonesia is the ring of fire country. Unique archipelago at equator line, consist of thousands islands with many rows of volcanoes standing here. Some volcanoes are active. On the slope of mountain, the tropical rain forest makes a unity with kingdom of animal.

And peoples from around the world coming here. For what? Many reason. A biologist trekking to the rain forest and making an observation about living organism. A geologist trekking to the top of volcano and put a seismograph there, to recording seismic wave caused by volcanic activity. A tourist trekking to the top of volcano, make a photograph and enjoying Indonesia's adventure. Local people trekking to the top of volcano and make a ritual / ceremony for their sacred day.

And you will going to the top of Indonesia's volcano. Because, Indonesia's volcano is the best place for your mountain / volcano adventure. We are Equator Indonesia, an experienced operator for Indonesia's adventure. Propose to you, our volcano trekking packages, especially in Java island - Indonesia.

Nice to be your friend on adventure. Thank you.

Yogyakarta, Februari 2017
